Adobe Photoshop / Illustrator, Figma, Responsive Design, Prototyping, UI Web Design, User Experience Research

EXTRACURRICULAR

Northeastern Women In Tech (NUWIT)
E-board Member, Web Chair
Jun 2020 - Jun 2021

Responsible for NUWIT site and planned 10+ workshops & events for 300+ members. Led workshop at NUWIT hackathon about responsive design and development.

WORK EXPERIENCE

ICapital (formerly SIMON) - UI Engineer Intern   `Jun - Aug 2022`
New York (NY) - ReactJS, Redux, Sass

Worked independently to build UI components for new crowdsourcing portal, which allows financial advisors to discover and invest in new investment products. Collaborated with UX design and backend to make end-to-end design decisions for project throughout 10 week internship.

WHOOP Inc - Web/UX Developer Co-op   `Jul - Dec 2021`
Boston (MA) - ReactJS, Sass, Storybook, Java, SQL

Developed key features for dashboard used by enterprises to manage WHOOP straps provided to their employees. Led a side project to standardize typography for scalability, completing a design system / library on Storybook which impacted 3 web departments.

ASICS Digital- Software Engineer Co-op   `Jan - Dec 2020`
Boston (MA) - Javascript, HTML/CSS, Salesforce

Utilized agile workflows to implement front-end bug fixes and features for ASICS' global e-commerce site. Part of team developing checkout features and integrated 3rd party vendors eg Qualtrics and Apple Pay.

PROJECTS

Developer Portfolio   `May 2022`
Tools: ReactJS, Sass, Material Design, Figma

Developed my online portfolio powered by React and Google's Material UI. Designed in Figma and Illustrations drawn in Procreate.

Beyond The Curve   `Aug 2020`
Tools: ReactJS, Bootstrap

Built informational site for tutoring company, Beyond the Curve, based in CA. Collaborated to understand requirements and fulfill client needs.

Tetris   `Mar 2020`
Tools: Python (pygame)

Proactively learnt python by creating my favorite game, Tetris- complete with basic game features. Utilized pygame library and MVC principles.

Prepper   `Aug 2019`
Tools: ReactJS, Bootstrap, MongoDB/Express API

Programmed front-end and back-end of web application to manage meal prepping and generate dynamic shopping lists.

OTHER INTERESTS

Travelling, Multimedia Art, Parrots, Cooking, Yoga, Volleyball
